[FOUNDERS] started [COMPANY] because [EXPLAIN PROBLEM IN YOUR INDUSTRY].

That's why [DESCRIBE JOURNEY TO SOLUTION].

Along the way, [SHARE MILESTONES AND WINS].

We want to be [STATE YOUR MISSION GOING FORWARD].

Guidelines:

When writing your about page – keep in mind that if you write from your perspective, you'll make the text more personal. Talking directly to your customer creates more trust and builds better relationships.

We [Robin & Jesper] started [RnJ Deals] because [there was a lack of unique items collected in a single place].

That's why [we decided to venture into the world vintage items, specialty goods, and unique wares].

Along the way, [we have attracted hundreds of people interested in unique products that share the same passion we do. So this creates a win-win situation for both us and you as a customer who's coming to this shop].

We want to be [the one source where passionate people can find all their unique items].
